Inhalers

Spiriva Hospital-to-Home Program

- Ensures that patients receive uninterrupted therapy between being discharged from the hospital and 30 days after.
- Eligibility
 - Patients discharged from the hospital needing the medication in order to continue therapy
 - A free 30 day supply and educational and saving resources are delivered to the patient's home within 1 business day
 - Patients are eligible to participate in this program up to twice a year.
- How to Apply:
 - Patients can be enrolled by fax or online, but must be enrolled by a practicing physician.
 - Prescriptions for Spiriva can either be e-prescribed, faxed, or called in.
 - Both patient and physician will receive support calls within 48 hours after enrollment.
- Website: <https://hcp.spiriva.com/hospital-home-program>

Incruse Savings (ELLIPTA)

- Two offers are available:
 - Free 30 day supply (with voucher)
 - Pay no more than \$10/month on Incruse for 12 months
- Who is eligible:
 - Patient must be 18 years of age or older
 - Patients who have primary insurance, but insurance may not cover the full cost of the prescription
 - Patients without insurance coverage
 - Eligible patients **without** insurance will receive up to \$100 off on each 30 day supply.
 - Any patient with government funded insurances or under government funded programs are **NOT** eligible to receive aid.
- Website: <https://www.incruse.com/incruse-savings-and-offers/>

Breo Savings (GlaxoSmithKline)

- Two different offers:
 - First 30 day prescription is free
 - Patients with or without insurance are eligible to participate.
 - Pharmacy cannot submit to government funded insurance in addition to the free offer
 - Patients with government funded insurance programs are **NOT** eligible to receive aid.
 - Patients without insurance will receive up to \$100 off on each 30 day supply.
 - Pay no more than \$10/month for 12 months on a 30 day prescription
- How to sign up:
 - Go to their website (<http://www.mybreo.com>)
 - “*Saving and Offers*”
 - Fill the application
 - Submit
- Website: <https://www.mybreo.com/copd/savings.html>

Insulin Patient Assistance Programs

Novo Nordisk Patient Assistance Programs (PAP)

- Provides a free 120 day supply of medication sent to the prescriber's office that can be picked up by the patient at his or her convenience.
- Eligibility
 - Patient must be a US citizen or a legal resident
 - Cannot have or qualify for any prescription coverage, Medicare, Medicaid, or Veterans' Affairs benefits
 - Patient's total income must be \leq 300% of the Federal Poverty Level
 - If the patient has applied for Medicare, they must have been denied for the Low Income Subsidy (LIS) program
 - If the patient is eligible for Medicaid, they must have been denied by the program
- Website: <http://www.novonordisk-us.com/patients/patient-assistance-programs/diabetes-care.html>

How to Apply for Novo Nordisk PAP

- Patient must print and fill out application found on the Novo Nordisk website
- Proof of income, copy of the previous year's federal tax return, 2 current paycheck stubs, a copy of W-2 or 1099 Form, and Medicare Part D coverage gap documentation (if applicable) should be included with the application.
- How to send in the application:
 - Patients can fax their documents to (866)-441-4190
 - Patients can also mail a hard copy of their documents and application to: Novo Nordisk Inc., PO Box 370, Somerville, NJ 08876
- Medical records are **not** to be included with the application

(olanzapine)

Blink Health

Blink Health Program

- How does it work?
 - Patients go online through the app on their phone, and type in the name of their medication.
 - There are no membership fees or no monthly premiums
 - Patients pay for their prescriptions online and will receive a “Blink Card” to either print off or have on their phone via text or email
 - Valid date of birth must match on the Blink Card as well as the prescription.
 - Patients fill their prescriptions at a pharmacy like they normally would, but show the Blink Card for processing information for \$0 charge at the counter.
- Patients pay online via the website or the app and pick up prescriptions at a local pharmacy

Blink Health Program

- Medications are offered by Blink Health at discounted prices (some up to 90% off)
- Examples include:
 - Zocor (Generic) AWP: ~~30.52~~\$
Blink Health Price: 4.91\$ (84% off)
 - Prilosec (Generic) AWP: ~~173.12~~\$
Blink Health Price: 9.92\$ (94% off)
- Who is eligible?
 - Patients without insurance
 - When the Blink price is less than your commercial plan copay
 - Medicare patients
 - Patient doesn't have to be legal resident or citizen
 - No proof of income needed

Blink Health Program and Residency

- Patients would not have to be documented residents in order to receive discounts
- Only concern would be ability of patients to pay for medications without a debit/credit card.
 - Possible for patients to purchase Visa gift cards at a local store and pay for medications with the card.

How Does Blink Provide These Prices?

- Blink provides a network of over 25 million people
- Prices are researched and compared and the best price between pharmacies is chosen.
- Blink combines patients together to leverage purchasing power in order to assure that patients are receiving the lowest possible price.

40% Off Lilly Insulins with Blink

- Beginning in 2017, Blink has partnered with Eli Lilly to provide 40% off insulins.
 - Discounted prices will take effect January 1, 2017
 - Discounts will be honored at over 67,000 pharmacies nationwide.
- Main goal is to increase the availability and affordability of insulin
 - This increase in affordability can lead to increased patient adherence.
- Website: <https://www.blinkhealth.com/press-release-2016-12-13>

What Does the Blink/Lilly Program Include?

- Humalog® (insulin lispro injection 100 units/mL)
 - One of the most widely prescribed insulins
- Humulin® U100 formulations (insulin human injection 100 units/mL)
- Basaglar® (insulin glargine injection 100 units/mL)
